Michigan 2-1-1 Resource Database – Statement of Inclusion/Exclusion Criteria

Statement of Purpose

The primary function of Michigan 2-1-1 is to collect, organize, and disseminate useful and accurate information about community resources that provide direct services or information about direct services to residents of Michigan. Michigan 2-1-1 also uses community resource data and referral transaction data to support community planning and research; the publication of area health or human service directories; host searchable online resource databases for public use; and participate in specialized programs, projects and committees, both at the state and local levels.

Collectively, the designated 2-1-1 programs in the State of Michigan work together to provide 24/7 comprehensive information and referral service to residents of their respective communities. For a current list of Michigan counties served by 2-1-1, please visit www.uwmich.org/2-1-1.

In order to be included in one or more of the community resource databases maintained by Michigan 2-1-1 an organization must meet the following criteria.

Geographic Criteria

An organization must be located within or provide service to residents of Michigan in a county that is actively served by a 2-1-1 program. Agencies located outside this geographic area may be considered for inclusion on a case-by-case basis. For a current list of Michigan counties served by 2-1-1, please visit www.uwmich.org/2-1-1.

Agency Type

Agencies appropriate for inclusion in the Michigan 2-1-1 databases include:

- Government bodies which provide a health or human service at the following levels:
 - Local
 - State
 - Federal
 - Special district
- Private nonprofit organizations, such as:
 - 501©3 organizations which provide a direct service or information about a direct service
 - Religious institutions which offer a health or human service available to the general public

- Professional associations which offer a free or low-cost service to the general public
- Labor organizations providing health or human services to their members
- Support or self-help groups
- Toll free hotlines that offer information about health or human services or direct assistance
- Educational institutions
 - Intermediate school districts
 - Trade schools
 - Community colleges
 - Special service components of schools or school districts
- For-profit businesses which offer a health or human service to the general public may be considered for inclusion if they meet the following criteria:
 - The service offered is a unique service or one that is otherwise unavailable from the nonprofit community
 - The service is available for free, low-cost, or on a sliding fee scale based on income, and the organization must have a documented policy for the provision of the service on a sliding fee scale and provide it at the time of application
 - The organization will accept payment for the service by another agency, government entity, or from Medicare or Medicaid

Note on licensing: Where applicable, proof of current and valid licensure will be required for inclusion in the Michigan 2-1-1 databases.

Note on cost of service: While most government, nonprofit, and educational health or human services are offered to the public for free, at a low cost, or as payable by a third party (such as Medicare or Medicaid), if a service's cost is considered to be generally prohibitive the service may not be included in the Michigan 2-1-1 databases.

Stability Criteria

Agencies appropriate for inclusion in the Michigan 2-1-1 databases must:

- Have at least one established service site that clients can physically visit should the service require it, but this will not force the exclusion of Web- and telephone-based services that otherwise meet the inclusion requirements
- Employ at least one full-time staff person, either paid or volunteer, who is regularly available to communicate with 2-1-1 resource staff and individuals seeking service
- Have been in existence for at least one full year (365 days), or demonstrate substantial proof of viability to the satisfaction of the resource database managers

Other Factors

As needs vary by community, some communities may opt to prioritize the development of community resource information based on the needs most urgent to their local population. The following factors may also be considered when evaluating organizations for inclusion in the Michigan 2-1-1 databases:

- Degree of demand/need for the services offered in each community

- Number of agencies currently included in the databases which already offer a particular service

Exclusion/Removal Criteria

Approval for inclusion in the Michigan 2-1-1 databases is a privilege, not a right. Approval for inclusion does not guarantee permanent inclusion. Michigan 2-1-1 reserves the right to exclude or remove an organization from one or more of the community resource databases at any time.

Examples of reasons for exclusion or removal include:

- Organizations that do not meet the criteria outlined above
- Lack of agency response to repeated attempts to acquire updated service information
- Prolonged periods of service unavailability or agency inactivity
- Service non-delivery
- Complaints to regulatory bodies regarding agency practices
- Illegal activity, including fraud, discrimination, or misrepresentation
- An organizational philosophy that is contrary to the mission of 2-1-1, such as one that promotes hate or violence

Statement of Responsibility

Inclusion in the Michigan 2-1-1 databases should in no way be construed to constitute endorsement of an organization or its services, nor should exclusion constitute disapproval. Michigan 2-1-1 provides referrals, not endorsements, recommendations, or ratings of potential service providers.

Michigan 2-1-1 reserves the right to edit information to meet software and database formatting requirements, and to utilize the information in community resource directories, in publicly searchable online databases, and for community planning purposes.

This Statement of Inclusion/Exclusion Criteria serves as a foundational document for the collective Michigan 2-1-1 community resource databases, and may be slightly modified by each partner agency in order to reflect the needs of their local community.

Decisions to exclude or remove an organization from one or more of the Michigan 2-1-1 databases may be appealed in writing to Michigan 2-1-1, provided that evidence can be presented showing that the decision for exclusion or removal was inaccurate.
